

A CARD.

TO OUR CUSTOMERS OF BELLEVILLE AND ADJACENT COUNTRY:

After a successful business career of twelve years we have decided to wind up business in this city, and take this opportunity to thank our friends and numerous customers for their very liberal patronage during that time. In order that our customers may receive a farewell benefit of this event, we have decided not to sell the Stock "on block," but by a General Clearing Sale of every yard of goods in the store. As there have been several announcements of so called Clearing Sales the past three months in the city, we beg the public to understand that OURS is not of that character, but genuine in every respect.

The whole stock must be cleared off in 90 days. An inspection of the Goods and Prices will convince you beyond doubt that the Stock has been marked down to "clearing out" prices. Hoping that our friends will bear in mind the old adage of the early bird and the worm, we remain

Respectfully,

RICHARD COSTELLO.

Notice to Builders.

TENDERS will be received by the undersigned up to noon on Monday, the 1st day of May next, for the construction of a Cottage No. 1, Pinnacle Street, in the City of Belleville. Plans and specifications may be seen at the store of Angus McNeil, Jeweller, Fresh Street, Belleville.

The Architect or any tender not necessarily accepted.

W. H. BIGGAR, Secretary, Belleville, April 29, 1882.

NEWEST DESIGNS.

I would call particular attention to

GOLD PAPERS,

DADO AND BORDER TO MATCH,

which have been carefully selected from the best manufacturers on the continent.

An inspection invited.

Price of paper ranging from 5c to \$1.50 per roll.

F. H. ROUS & Co.

Belleville, April 21.

Kid Gloves cleaned and dyed. Price 50c per pair. All other cleaning and dyeing done in first class style, at equally low prices.

Daily Intelligence.

City and Vicinity.

The open season for trout began yesterday.

Quite a break showed of ball field this morning.

A CONCERT is to be given in a few days in aid of St. John's church.

Mr. Cass. Conroy's fine library has been sold by private sale to Mr. Geo. Dewdney.

This petition from the merchants on the ferry route question is to be sent to the Ontario Government.

Mr. LaRocque is going to Kingston to-day to engage a vessel to take stone to the quarries at Oxtown to Chicago.

This annual meeting of the members of the Mechanics' Institute, will be held a week from to-night—the 9th inst.

After half a dozen ferries looking vehicles appeared on the market to-day, and the number of buyers was very small.

Mr. S. H. Blake, Q. C., arrived from Toronto last night to attend the Chancery sittings.

A fire new from has been placed in Hogg's tailor-shop. Two handsome plate glass windows have been placed in the windows.

Also, BRADSHAW'S by-law providing for the special system of patrolling the business streets during the summer was read last night.

Tax Victoria Block has assumed a very handsome appearance. When the work of restoration is completed it will be one of the finest buildings in the city.

THIRTY thousand tons of steel rails for the Midland Railway will be brought to Belleville this year. They will be conveyed here from Montreal in large.

The Taxpayers' Conservative Association will meet in the Conservative rooms, in this city, on Saturday next at 2 o'clock p. m. A large attendance is requested.

A HOUSE was so frightened by a running of a paper on Friday that it was so startled that it could hardly be restrained from running away. Storekeepers should be very careful not to allow paper to be swept into the streets.

Mr. E. G. Porters, while riding his bicycle a few days ago, fell off and sprained one of his ankles so seriously that he is unable to walk without crutches. He will probably be confined to the house for two weeks.

Mr. Tom W. KERR in "Richard III" will be well worth seeing, even though he may not be as great in that character as Both or Sullivan—especially as we have not had a good theatrical performance in Belleville for several weeks.

The By-law defining the fire-limits of the city, and prohibiting wooden structures from being erected thereat, was passed at the City Council last night. The limits embrace Front and Pinnacles Sts., extending from the bay to the turn of the river.

The City Council expressed by vote, creating their opinion that making the assessment by means of an Assessment Commissioner was not the proper course for the city. The assessment will probably be made in the old slip-shod way this year.

The annual examinations for teachers are announced. That for first class will be held at the Normal School, Toronto, on July 10th at 2 p. m., and those for second and third class at the Central School, Belleville, on July 12th at 2 p. m.

CARTERS' stands are to be located and provided by the Board of Works. This has become a necessity, for there is no longer any room for the carts on Bridge St., now that the building material for the Government building.

The Ferry.

The following is a copy of the petition with regard to the ferry, which was presented to the City Council last night.

To the Honorable Council of the City of Belleville:

The petition of the undersigned merchants and others engaged in business in Belleville, sheweth:

That, all of the citizens of the City, they are most directly and deeply interested in the increase of the trade between this City and the County of Prince Edward.

That, for some years past, the ferry across the river, which is the only mode of communication sufficient for the requirements of the trade, and that the rates of ferriage, have been too high.

That, were the accommodation increased to a proper extent, and the rates suitably reduced, this trade would be increased from two to three fold.

Your petitioners would therefore pray that, as this question will soon come before your honorable body in connection with a new ferry license, which we trust will be well considered, that you will graciously increase the accommodation at reduced rates.

Your petitioners would impress upon your honorable body that, if the ferry is to be a fair and profitable one, it should be made between the two shores during the day, and that the ferriage should be reduced to a reasonable rate.

Your petitioners are convinced that the different rates demanded, is the result of the City's policy to select that which requires the shortest water carriage, and urge upon your honorable body to adopt the water route terminating at Bushy Island upon this shore, building a roadway through the marsh to the mainland.

Your petitioners present the following reasons why this route should be adopted:

1st.—That as the ferry is a daily line, the accommodation of farmers and their teams, is a great advantage to delay the horses upon the water route as short a time as possible, the short difference in the land route requires the longer delay account to those who are driving.

2d.—That landing at Bushy Island would avoid the great and rapidly increasing danger to teams crossing the bridge at Belleville.

3d.—That the ferry is a daily line, the accommodation of farmers and their teams, is a great advantage to delay the horses upon the water route as short a time as possible, the short difference in the land route requires the longer delay account to those who are driving.

4th.—That while it would require the City to expend some money in the ferry upon the old route in order to give the necessary accommodation at sufficiently low rates, these could be obtained upon the proposed new route without any extra expense to the City.

5th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

6th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

7th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

8th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

9th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

10th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

11th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

12th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

13th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

14th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

15th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

16th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

17th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

18th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

19th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

20th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

21st.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

22nd.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

23rd.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

24th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

25th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

26th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

27th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

28th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

29th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

30th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

31st.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

32nd.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

33rd.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

34th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

35th.—That usually a boat can be run between Bushy Island and the opposite shore from two to three weeks earlier in the spring than on the old route, and that this would be a great benefit to the trade.

Morning Dispatches, Continued.

At Hamilton, N.Y. on Sunday morning, Louis Vogel, while suffering from delirium tremens, committed suicide by putting his throat with broken glass.

Great loss of life was caused on the south coast of England by the recent storm, and several wrecks are reported in the channel.

The steamer *Glennora*, which has arrived at Boston, reports having passed over one hundred icebergs, many with polar bears on them.

AFTERNOON DISPATCHES.

A BLOODLESS DUEL. New Orleans, May 2nd.—In a duel with pistols yesterday at St. Bernard's parish between J. Leveay and a son of an Attorney General, several lives were lost.

The affair grew out of certain charges against the Attorney General presented in Leveay's paper.

New York, May 2.—Arrived, the *Belgian* from Antwerp.

AT WATERWORKS. WATERWORKS, N.Y. May 2.—It is snowing hard here. The water is raw and cold.

THE SUBJECT. LONDON, May 2.—The Times says: It will be formally decided to-day whether the United States will be allowed to have a seat on the International Law Commission.

The subject of the International Law Commission is a subject of great importance to the United States, and it is hoped that the Commission will be able to settle the matter.

The subject of the International Law Commission is a subject of great importance to the United States, and it is hoped that the Commission will be able to settle the matter.

Bellefleur, April 28.

Local Notices.

Notice under this head, for a few days, in order to inform the public of the results of the election.

Kid Gloves cleaned equal to new. Price 50 cents per pair. All other gloves cleaned at 25 cents. We have still a few patterned laces in our well known 75 cent line. They are equal in quality to the best and usually sold at \$1.00 per yard.

Daily Intelligencer.

BELLEFLEUR, THURSDAY, MAY 4.

City and Vicinity.

Two tramps took shelter in the cells last night.

The police found a shop door open on Front last night.

All the striking G. A. R. brethren have been taken back to work.

Remembrance in "Evening III" at the Metropolitan Hall this evening.

Mr. Kane and his company arrived from the west by the noon train to-day.

The Board of Health give notice that all premises must be cleaned up by the 20th inst.

The meeting of the Cricket Club to-morrow evening is to be held in the Club house.

The subject of Protection will be amply discussed.

The latest telegrams from Winnipeg with regard to Mr. Wilks's condition are to the effect that he is now in a fair way towards recovery.

The meeting for the Toronto & Ottawa Railway which was referred to in Tuesday's issue, will arrive here in barges from Montreal in two weeks' time.

The timber which has been raised here by Mr. Bell is taken on its long journey to Quebec this morning, in tow of a large Kingston tug, the Champion.

A MEETING of those who have subscribed for stock in the car works and of those who feel inclined to become stock holders, is to be held in the City Hall to-morrow night.

Messrs. Peterson & Parliament propose erecting a wharf and grain market at Colborne and are petitioning the Orono Township Council for a bonus of \$5,000 to assist them.

The St. Andrew's Society met last night and appointed a committee to consider the advisability of having a picnic or excursion in the season, and, if so, to fix upon a date for one.

Messrs. Lake & Jenkins have had the Dufosse House repaired, repainted and otherwise improved. It is painted in light, cheerful colors, and is now a really handsome residence.

Two years, for the third year in succession, the get of Mr. R. B. Bell's "Wildcat" have won first prize for black cocker spaniel weighing less than 28 pounds, at the New York dog show.

The number of cattle impounded in the city during the quarter ending April 30th, according to the report of Mr. Craig, Inspector, was 22. Two pigs and a horse were also impounded.

The arrangement between the G. T. R. and Midland, by which Midland trains will be run up to the G. T. R. station before they are brought down into effect next week.

It is doubtful whether the proposed rifle match between teams of the G. T. R. and Midland, which was to have taken place on account of the volunteer service in Kingston.

A REMINDER of Italian employment at the Canada Cottonseed Oil Mills left in a body this morning. The men were engaged last fall to work for the company for a year, and the city police were notified of their action this morning, and requested to detain them. The police authorities, however, have no power to detain a master of a ship. The Italian navy, we believe, arrived in the city.

Mr. J. W. FETTERBERG has been engaged by the Montreal Philanthropic Society as one of the soloists in Handel's "Messiah," "Arie and Gato," which is to be performed by that Society next week. The part he will sing will be that of Messiah.

The most that can be prophesied about the weather just now is—"The sun is coming, the sun is covered with black spots, and Venus has the rheumatism. The three things together are likely to mean a very fine weather for some weeks."

A TELEGRAM from Trenton this afternoon informs that Thomas Worthington, Esq., Commissioner of Internal Revenue for Canada, died at 10 o'clock this morning at the residence of his son-in-law, G. H. Gordon, Esq. The funeral will take place to-morrow afternoon at an early hour.

A new first-class coach has been added to Conductor Morris' train on the G. T. R. division. It was manufactured at the Midland works in Port Hope, and is a credit to that establishment. The painting is especially fine. A new baggage car will be placed on the same train in a day or two.

The charge of allowing gambling in her salon, brought against Eliza Wood, was found to be established. The Magistrate, on the ground that the license was not made out in her name, as was at first supposed. A new information will be made out against her husband, E. Wood, and the case will come up at 10 o'clock this morning.

It seems almost a matter of impossibility to fix on a site for the proposed driving park. We understand that Mr. L. H. Beaulieu, the owner of the land at the eastern extremity of Hotel St. Charles, the promoters of the scheme had fixed upon as the site for the park, refuse to make any arrangements whereby any part of it could be used for that purpose. A meeting of those interested in the scheme will be held to-morrow evening in Mr. Corbin's office, when the matter will be further considered.

A PARTY in Caniton brought a charge of assault on the person of Mr. J. H. Beaulieu, the owner of the land at the eastern extremity of Hotel St. Charles, the promoters of the scheme had fixed upon as the site for the park, refuse to make any arrangements whereby any part of it could be used for that purpose. A meeting of those interested in the scheme will be held to-morrow evening in Mr. Corbin's office, when the matter will be further considered.

Daily Intelligencer.

BELLEFLEUR, MONDAY, MAY 8.

City and Vicinity.

Mrs. YOUNG, the temperance lecturer, is lecturing in the west on her favorite subject.

Another lot of new books, chiefly works of fiction, has arrived at the Mechanics' Institute.

The annual meeting of the Hastings Ridge Association will take place this evening, at 8 o'clock.

The annual meeting of the Mechanics' Institute will be held to-morrow evening at the Institute.

Mr. RETALLACK wishes to thank the many friends who on Saturday assisted in removing his goods from his store when on fire.

Mr. W. J. GATLEY's condition does not improve. His brother, Mr. J. J. Gating, of Hartford (Conn.), the inventor of the famous Gatling gun, has arrived in the city.

Mr. I. B. GRAMER intends bringing his family back to Belleville to reside. He will, however, discontinue his connection with the Montreal firm of which he is a member.

ROBERT R. PALMER, of Thurston, was fined \$200 and costs by the Police Magistrate this morning for selling liquor on Sunday. The case was to have come up to-morrow, but Palmer came in and acknowledged the offence.

It is reported that a young man named Ayres, from Shanawano, committed suicide in the Napesee Gaol on Thursday last by dashing his head against the stone walls of his cell. He had been committed to jail the previous day, and was suffering from a violent fit of delirium tremens.

Four drunks were brought before the Police Magistrate this morning. Patrick O'Malley was fined \$1.00 and costs, and Jas. Towley, Stephen Preston, and Jeremiah Van Meer were discharged. Van Meer was also charged with forcing driving on Saturday afternoon, for which he was fined \$5.00 and costs.

An elderly woman picked up a pair of carriage wheels, or steps, on the street this morning, and thinking that they must be some surgical instrument, she went in search of a physician in order to dispose of them for some pecuniary consideration. She was persuaded by a policeman, however, to leave them at the police station.

On Saturday evening a drunkard laid himself down on a bench of iron on a cart, to enjoy a brief period of repose. The cart was set in motion at 10 o'clock, and the man was thrown off, and tried to induce the man to arise and depart; but as he clung to his bed of hay, the cart quietly drove on to the police station, and he was transferred to a somewhat harder couch on the boards of the cart.

Mr. S. RETALLACK responded his gun's firing-belt on Saturday night in the store next door to Yeomans' drug store, before old premises had ceased smoking, and Mr. Latimer resumed his work, and the same evening in the rooming building next to C. F. Smith's hardware shop. This is something like the story given by the Chicago merchants after the fire.

A Toronto man named Brown was killed at the battle line, near Madoc, on Saturday, about noon. He was driving the mule, with his mother, when the steam mule blew and frightened his horse, which he ran away and threw him and his mother from the wagon to the ground.

When Brown was slightly injured, but when his son was picked up it was found that he was broken and dead. His wife is informed that the deceased lived in Belleville.

Have long lived their vocation on the suffering side of the people. The knife has been used in the city, and the victims of the knife have been the victims of the knife.

Keep the Feet Dry. The feet are the seat of all lumpy troubles; they are the seat of all lumpy troubles; they are the seat of all lumpy troubles.

Keep the Feet Dry. The feet are the seat of all lumpy troubles; they are the seat of all lumpy troubles; they are the seat of all lumpy troubles.

Keep the Feet Dry. The feet are the seat of all lumpy troubles; they are the seat of all lumpy troubles; they are the seat of all lumpy troubles.

Keep the Feet Dry. The feet are the seat of all lumpy troubles; they are the seat of all lumpy troubles; they are the seat of all lumpy troubles.

Keep the Feet Dry. The feet are the seat of all lumpy troubles; they are the seat of all lumpy troubles; they are the seat of all lumpy troubles.

THE UNLOVED WIFE

By Mrs. R. R. R. BOWEN.

CHAPTER XXV.

DOOMED.

Then she went to tell her heart.

That good life in the letter part.

And then with grief's arm.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

When she came to the end.

She was a very pretty creature, notwithstanding the puffed cheeks and fallen face. The old maid had fallen from her figure, retaining a shapely little head covered thickly with curly, curling hair, a small face, with delicate features and dark complexion, lighted up by a pair of brilliant blue eyes, to which she lent her face light.

BEST MAIZE SUGAR.

100 per lb. at the

CITY BAKERY.

TO OUR CUSTOMERS OF BELLEVILLE AND ADJACENT COUNTRY:

After a successful business career of twelve years we

have decided to wind up business in this city, and take this

opportunity to thank our friends and numerous customers for

their very liberal patronage during that time. In order that

our customers may receive a farewell benefit of this event we

have decided not to sell the Stock "en bloc," but by a Genuine

Clearing Sale of every yard of goods in the store. As there

have been several announcements of so called Clearing Sales

the past three months in the city, we beg the public to understand

that OURS is not of that character, but genuine in every

part.

The whole stock must be cleared off in 90 days.

An inspection of the Goods and Prices will convince you be-

yond doubt that the Stock has been marked down to "clearing

old" prices. Hoping that our friends will bear in mind the

old adage of the early bird and the worm, we remain

Respectfully,

RICHARD COSTELLO.

THE SUN

LIFE ASSURANCE COY OF MONTREAL.

Ague Cure

Unconditional, Incontestable Life Policy.

THE objection is very often made to Life Assurance that the Company may take advantage of the insured.

It is one of the most common and complicated conditions on the policy, and the insured is often misled by the agent.

There is considerable force in this argument, but it cannot be urged indiscriminately against all Companies.

The SUN LIFE ASSURANCE COY. of Montreal is a company of the highest standing and the most reliable.

It is one of the most reliable and the most reliable.

It is one of the most reliable and the most reliable.

It is one of the most reliable and the most reliable.

It is one of the most reliable and the most reliable.

olined to think that a purely agricultural country cannot be a prosperous country. In 1846 the first measure forwarding Free Trade was introduced; from that time it is that the population began to decrease, is now only 3,150,000.

Hon. Mr. Power—Does my hon. friend think the famine had anything to do with it? Hon. Mr. Read—Certainly I do; will now give a little history of the population of Ireland: In 1801 it was 5,260,000; in 1841 it had decreased to 8,100,000; in 1851 it was 6,574,278; in 1861 it had decreased to 5,798,967; in 1871 it fell to 5,410,000; and in 1881 it stood at 5,169,939. Not only reasonable conclusion to which I come is that, Ireland being a purely agricultural country, without any extensive manufacturing industries, was badly affected by the policy of free trade, which, coupled with want of enterprise,

Hon. Mr. Smith—No, it did not them.

Hon. Mr. Rea—Well, they were there all events. I have had very little experience of Ireland but I have a

to make myself acquainted with its
and if I have failed it has not been for
of attention on my part.

— Hon. Mr. Howland—It is your misdeed,
not your fault.

— Hon. Mr. Read—Yes. Now a great
has been said about the land tenure in
and about exorbitant rents, and my
friend who moved this resolution said
something about the number of tenants.
I give a few facts bearing upon these
and in doing so shall quote from the
Revenue returns of Great Britain and
Ireland—

— Hon. Mr. Howland—For what year

Hon. Mr. Read—For the year 1881 the land question seems to be the most important we will make some comparisons to see how they will result. The hon. member for the resolution before us stated that there were 20,000,000 acres of arable land—

Hon. Mr. Howland—I do not wish to interrupt my hon. friend, but I said there were 20,000,000 acres when speaking of the Prince Edward Island as compared with the rest of the land. I said the latter contained 20,

Hon. Mr. Read—I took down the gentleman's words—20,000,000 of arabah. Now, the whole of the British Empire assessed for revenue purposes; all trade, professions, and persons having income from any other sources, are required to contribute so large a amount of money comes from the pockets of the rich, for no man

not an income of £150 *etc.* is liable to be assessed for income tax... From all taxes is realized £10,000,000 *etc.* in a single year. Now, under that assessment we get the minute information and we find that the cultivated land in Ireland in 1878 was 203,705 acres. I must explain that the general assessment is only made every 10 years, but it is gone over every year so that was the result in 1878; the rest of the acreage comprised bare and waste land.

suitable for cultivation. So that
be seen only one quarter of the
comes under the heading "cul-
lands." I have here details of the cro-
are raised upon this area of 5,203,70
and will read it should any hon. gen-
desire the information. Now I come to
where I must deal with the second spe-
this subject in the House of Commons
tlemen whose name I will not men-
who has had a pamphlet circulated of

have a copy; and I must show that his memos are not in accordance with the Revenue returns. He stated that "in one in every two hundred and fifty-seven sons own farm land;" yet I hold in my hand a return which gives a very different and the accuracy of which cannot be questioned. I find that there are 68,768 acres of land, which divided would give every seventy-five an owner. But I think that I may be able to descend, I

that I may not be understood I think that farming lands are not here referred to but the figures given include both house and farm lands. Taking them separately there are 32,614 owners, which gives one hundred and fifty-eight of the population. That is a true statement according to the official returns, and I cannot command better authority to quote from; and I regret that any hon. gentleman in this place should have published a statement

was not in accordance with the fact. I agree in what the hon. gentleman said about the defective character of the land law. I admit there are many other things in Britain and Ireland which are defective, but in this new country we can adapt ourselves quickly to circumstances, we can act more promptly, and can take a more extensive view of things than people in the old country. They have grown up with these abuses, and may so term them—and are in a measure

sensible to them. The next question is the question of rent. It is said they are exorbitant. I will compare them in the two countries. From these returns it appears that the average rental of these five million acres, is thirteen shillings and four pence sterling. I find that the average rent proportion to the cultivated land in Scotland is 13s. 4d. per acre, in Scotland it is 10s. 6d. per acre, while in England it amounts to 8s. 2d. Then let us take

ownership and the average acreage. That the tenants in Ireland on an average occupy 26 acres, and in Great Britain they are 56, while in France it is very much more. From a return published, I find that in France there are 60,000 occupants of over 600 acres each; 500,000 of over 70 acres, and 6,000,000 occupants of land under six acres. In view of these facts it surely cannot be held that thirteen shillings and four pence is a prohibitive rent per acre! I must now try to

Hon. Mr. Dever—When was this?
Hon. Mr. Read—in 1881.
Hon. Mr. Dever—But they are not
rent now; it is £20,000,000 sterling.
Hon. Mr. Read—I do not quote his
evidence; my authority is the 24th re-

Her Majesty's Commissioners of Inland Revenue, and I find here further evidence is correct, because it shows the exemption which are £7,257,948 etc. being income low £150 a year. The income tax of five in the pound was paid on £2,722,595. now give the number of separate proprietors the three countries: I find that in England there are 5,730,074; in Scotland, 443,000; and in Ireland, 1,152,435. The average of the owners of these properties is as follows:—In Ireland, 1,152,435; in Scotland, 443,000; and in England, 5,730,074.

each country are as follows: in Scotland, each owner receives £195 8s., and possesses 293 acres 32 perches; in England it is nearly so much, and in Scotland still. The owners of land less than an acre in land number 132,230, and the owners of an acre are 19,225. The average receipt each owner in Scotland is £148 8s., an average ownership is 143 acres one rood ten perches; while the average rental paid is fifteen shillings. It may be asked, many acres of land are cultivated in Scot-

I answer, the whole of Scotland contains 19,461,132 acres, but the cultivated land only amounts to 4,438,137 acres; consequently in Scotland a little over one-fifth of land is under cultivation, while in Ireland the proportion is one-quarter. I cannot find in England there is any uncultivated land which would seem to prove what I have

[illegible]

A GOOD comfortable frame dwelling house with Shop attached, suitable for a man or general business. There is a starter acre land, good stable, several trees bearing fruit, and a never failing well. This desirable property is situated in the village of Heslin, and must be sold. For further particulars apply to
W. F. HUDSON,
Executor for the Estate.
Heslin, Feb. 20, 1882. d.w.

figures I quoted was taken in 1841. I again it does not appear that man-of-war at that time were very extensive in Ireland but rather the reverse; so it must be concluded that the larger population was sustained by the land. I have, therefore, been led to the belief, in which others, I hope, may not agree, that the Free Trade measure of 1846, had something to do with the decreasing population in Ireland. I do not, of course, account for it exactly, but I know what took place in 1846, and I am

average ownership is 195 acres out of an average of 250 acres, and the average rental is no perches; while the average rental paid is fifteen shillings. It may be asked, how many acres of land are cultivated in Scotland? I answer, the whole of Scotland contains 10,461,182 acres, but the cultivated land only amounts to 4,438,187 acres; consequently in Scotland a little over one-fifth of the land is under cultivation, while in Ireland the proportion is one-quarter. I cannot think in England there is any uncultivated land, which would seem to prove what I have

City and Vicinity.

THIRTEEN more horses have been shipped by Mr. W. Fanning to New York.

The schooner *Nellie Thorne* and *Ocean Wave*, and the *Sloop* *Arrived* today.

Mr. J. A. BARKLEY shipped twelve thousand cases of eggs to Boston today, per G. T. R.

Only one tramp sought protection in the police office from the wind and rain last night. No prisoners.

The Cricket Club have negotiated for the lease of the old cricket field for the season and it is probable, will secure it.

THOM. CHEVENS was fined \$2 and costs by the Police Magistrate this morning for cutting a hole in the sidewalk on Bridge St.

MR. TOM. WATSON has had his office and residence connected by telephone. This makes thirty-five instruments now in use in the city.

The Rev. A. Schuster's City Mission office will be in the future at Mr. Parley's, 2 doors east of the post office. Office hours from 10 to 11 o'clock.

THAT adjourned public meeting of the citizens to consider the car-work project and take action thereon will be held tomorrow evening in the City Hall.

The Cricket Club will meet tomorrow evening at the Hob, when arrangements will probably be made for the amalgamation of the "Our Boys" club with the senior organization.

Mrs. J. B. Flint and G. J. Sherry have entered into partnership as Barristers, Attorneys, &c. Their card appears in another column. No doubt the new firm will achieve success.

PURVIS continues to afflict the horses of this district. A veterinary surgeon informed us this morning that he was treating seven or eight horses more or less affected with the disease.

THOMAS was held with last night. The wind in the wind fell, and the strength of a hurricane. An immense quantity of rain also fell, and has not ceased falling to day.

A case of trespass was tried by the Police Magistrate this morning, brought by John Fitzpatrick against Jas. Marshall. The complainant charged the defendant with having dug holes in his field in the 7th concession of Sidney. The defendant denied the charges, but was fined \$5.00 and costs.

The proprietor of the German House at a traveller as it has a few days ago on one meal the ordinary quality of one thing and another, together with a fine trout, averaging five inches each. Who will pretend to say, after this, that man wants but little here below!

MR. W. HARTWELL, law student in New Orleans, passed his final examination yesterday, coming out seventh in a class of forty-one. Mr. D. Roberts, formerly a student with John Bell, O. Q., also succeeded in passing his final examination. Several Belleville students are up for their second intermediate.

WATSON PARASITIC—Toronto, May 11.—Late, another strong wind, with rain and hail from east and northeast to west, decreasing in force by tomorrow, cloudy, good weather with occasional rains followed by clearing weather.

CORR.—Wabashville, May 11, 1882.—To E. Taylor, Jr.: \$100 you pay 600 lbs. of Whitefish and Trout, and 200 lbs. of whitefish. One shall understand me.—James Anderson.

For cheap fish, the old City fish market on Market Street is the place.

BIG FIRE IN HASTINGS.

A Large Part of the Village Destroyed.

Newspaper, Post and Telegraph Offices Burned.

NAMES OF THE SUFFERERS.

HASTINGS, May 11.—A most disastrous fire, originating in Shirley's wagon shop, consumed the buildings at Hastings, including the newspaper, post and telegraph offices, and the homes of many of the sufferers. The fire broke out at 10 o'clock, and in a few minutes the buildings were in flames. The fire spread rapidly, and in a short time the entire village was in flames. The fire was caused by a candle which had been left burning in Shirley's wagon shop. The fire was extinguished at 11 o'clock, but the damage was done. The following are the names of the sufferers: Shirley, the newspaper, post and telegraph offices, and the homes of many of the sufferers.

News Condensed.

—Chase in Liverpool to day.

—The loss by the fire at Hastings will reach \$100,000.

—Twenty-four thousand chickens are expected to arrive in British Columbia before August.

—It is now considered certain that the proposition will take place on Tuesday or Wednesday next.

—To the 31st March, 872 suspects were arrested in Ireland, of whom many have been liberated.

—A mother and five children were poisoned by eating mushrooms at Ottaville. One of the children has since died.

—A young woman sensibly fell from a third story window in Montreal a few nights ago and received no injury of consequence.

—The bill restricting infliction of death penalty to cases of premeditated murder has passed its second reading in the British Commons.

—Egypt is a state of revolution. It is understood that the Khedive's deposition is practically accomplished unless speedy intervention occurs.

—Messrs. S. J. Lane and D. Creighton, the present representatives of North Grey in the Commons and the Ontario Legislature, have been re-elected.

—Nancy Currie, a widow about 80 years old, who lived alone in a log hut near New Glasgow, N. S., was burned to death by fire on Friday evening last.

—The Senate has passed Mr. Kirkpatrick's bill respecting the sale of railway passenger tickets, better known as the bill to abolish "coupons."

—The effects of Mr. J. T. Barnett, late American Consul in Ottawa were sent for rent for a few days, and he has failed to do so. A number of parties are out a considerable amount.

—The Irishmen of the Capital met on Tuesday evening in the City Hall and passed resolutions denouncing the Phoenix Park assassinations. Mr. P. B. Skelly, M. P., was elected the chairman among those present was Mr. Gault, M. P.

North-West Territories Division.

The four new provisional provinces into which, for the convenience of settlers and for postal purposes, "says the order in council dated 10th May, 1882, the North-West is divided, are to be named Assiniboia, Saskatchewan, Alberta and Athabasca. Their boundaries are as follows:

1st. Assiniboia.—The district of Assiniboia, about 95,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

2nd. Saskatchewan.—The district of Saskatchewan, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

3rd. Alberta.—The district of Alberta, about 100,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

4th. Athabasca.—The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

5th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

6th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

7th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

8th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

9th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

10th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

11th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

12th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

13th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

14th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

15th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

16th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

17th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

18th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

19th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

20th. The district of Athabasca, about 114,000 square miles in extent, to be bounded on the south by the international boundary line, the 49th parallel; on the east by the western boundary of Manitoba; on the north by the 50th correction line of the Dominion; and on the west by the 100th parallel of longitude.

THE ASSASSINATION.

MORE ARRESTS MADE.

The Murderers Said to be Hiding in Dublin.

Further Views of Mr. Egan.

The midnight dispatches tell of a general suspicion and of men in custody. Two persons have been arrested in England, one at Preston whose clothes are bloody and who admits having been in the Phoenix Park at the time of the murder; the other that of a young man of Southport, who asserts he was offered \$500 to help in the assassination but refused, and that he can put his hand on the murderers, who are in hiding in Dublin.

Since Mr. Trevelyan has gone over to Ireland to enter on his duties, Colonel Hill, Inspector-General of the Royal Irish Constabulary, has resigned just at this time.

The funeral of Lord Frederick Cavendish takes place to day, and Parliament stands adjourned till nine o'clock to-morrow, in order that those of the members who choose may attend the funeral.

The Queen has sent a message of condolence to the family of the late Mr. Burke, and the ladies of the household have been invited to the funeral of Lord Cavendish.

One of the biologists says Lord Cavendish got after him was knocked down. He was on the men braining a large bat's head. The story told by these men is not believed.

By-henry, the American Irishman suspected of complicity in the assassination, has been released.

SEAF OFFERED TO LAND LEAVE REWARD.

Dublin, May 11.—With reference to the suggestion that the Land League offer a reward of £2,000 for the assassin, Mr. Egan, Treasurer of the Land League, telegraphs and writes to the *Standard* that the League has no money to offer, and that the offer of a reward is a matter of public feeling, and may be added to the list of the possible sacrifice of a guinea.

Land League funds have been voted for the purpose, and it would not be a matter of public feeling, but a matter of public feeling.

THE POLICE continue making arrests all over the country, but these seem to be for the sake of appearance, rather than for any definite purpose.

DAVID BREAKS.

LONDON, May 11.—David says there is in his heart no bitterness toward English people. In the triumph of the Gospel "Land League" there is no hatred, and the regeneration of England is clearly as that of Ireland. He says that the Irish are treated as equals. He will willingly go to Ireland and do what he can for the people.

DAVID BREAKS.

LONDON, May 11.—Further arrests in Drogheda, Longford, and Co. Meath in connection with the Phoenix Park assassinations. Three men arrested in Co. Meath have supposed blood stains on their clothes.

STATEMENT DISCREPANT.

The police division in Dublin of the man who asserted he was offered £100 to assist in the murders.

ARMAGEDDON.

Parnell's reception committee in Cork have abandoned the idea of celebrating the release of the imprisoned members of Parliament.

ANOTHER OFFICIAL TESTIMONY.

It is stated that while Morris, Lord Chief Justice of the Court of Common Pleas, was walking in Phoenix Park on Saturday, a young looking man said: "The Chief and Lord Justice have been murdered. You are the next man shot." Morris then believed the man was a fanatic, but he has since been absent from Court. It is thought he went to England.

"UNITED IRELAND" SENTIMENTS.

DUBLIN, May 11.—The *United Ireland*, instead of the usual cartoon, has a mourning band encircling the words: "In token of the abhorrence and shame cast upon our chief justice by the murder of Lord Justice." The paper for manifestos and hospitality by the assassination of Lord Frederick Cavendish and Under-Secretary Burke. It also has an article saying: "Despatch is hardly the word to describe the first sensation with which we saw the prize won by years of suffering, shipwreck in a moment of victory by and desperate hands."

MOR INC DESPATCHES.

EUROPEAN.

ROYAL DRAWING ROOMS.

LONDON, May 11.—A good deal of comment is looked for in the Radical newspapers owing to the circumstances that the Queen held a Drawing room the day of Burke's funeral, and another takes place to-day, when Cavendish will be buried.

AMERICAN.

FOR MEN NERVOUS TO DEATH.

ST. JOHN, N. F., May 11.—Four men have started to death in Philadelphia; the tragedy is due to the severity of the weather.

PERMANENT DEATH ON THE ASSASSINATION.

NEW YORK, May 11.—At a Land League meeting last night, James Redpath said that he would not wear a cap for Cavendish and Burke. He invoked the Queen as criminal for holding her tongue regarding the murder of his father by the constabulary.

THE LATTERED TESTIMONY.

In a speech at the same meeting Col. Connelley said: "No matter how justice was overdone to men than the attempt to hold my brother responsible for the assassination of Garfield."

NEW YORK, May 11.—Arrived, Atlantic and Pacific from Liverpool, *City of Florida* from Glasgow.

BEAUVILLE, FRIDAY, MAY 12.

The Trent Valley Canal.

It is pleasing to be able to give our political opponents credit for consistency in one thing, and that is in opposition to the Trent Valley Canal. One of Mr. Mackenzie's last official acts as Minister of Public Works in 1872, was to order over the works to the Ontario Government, with power to destroy them, the object being to rest the dam, thus recovering a quantity of land which had been overdrained in consequence of their construction for the purpose of making the Trent navigable, and handing the same over to their political supporters. The present Government, recognizing the value of the interior line of navigation which was thus intended to destroy, reversed Mr. Mackenzie's action, retained the works, and now propose to expend \$200,000 for the construction of locks and improvement of navigation, thus opening a direct line of navigation 150 miles in length, which will form part of the through canal in due course.

The item came up on the night of the 10th in Committee of Supply, when Mr. Mackenzie was for once consistent and opposed its passage, declaring it to be, in his opinion, "a great mistake to build this canal," and that "it is a great piece of folly." No other member of the Grit party spoke, hence as by their silence they must be held as having concurred in Mr. Mackenzie's utterance, it is plain to see that the Grit party are hostile to the Trent Valley Canal, as they always have been to the Murray Canal. Those who desire the construction of these works will hardly assist in placing the blame on the report of the discussion which took place in Parliament on the subject will be found in other columns.

Another Reform Witness.

Another influential Reform witness to the benefits of the N. P. has come forward in the person of Mr. Workman, ex-M. P. for Montreal West, and head of the great hardware house of Frothingham & Workman, who recently concurred as follows with a representative of the Mail:

Q. How do prices of hardware manufactured here now compare with the prices of similar goods in 1870, when the canal was proposed? A. The prices, generally speaking, are not in the least degree changed. There may be a few, but very few, articles that are now made at a half per cent. higher than before the canal was proposed.

Q. Has your business increased under the tariff? A. Oh, yes, greatly.

Q. What other benefits do you enjoy under the National Policy? A. The Dominion is now made the almost exclusive market of the United States for the surplus production of that country, as it was under the old tariff. Prices are now stable, and business is carried on without the various losses previously incurred.

Q. Then you are satisfied with the existing state of the tariff? A. Yes.

This ended the interview.

Editorial Comments.

Sir Albert Smith, who represents the county of Westmorland, New Brunswick, in the Commons, is by no means happy. He was Minister of Marine in the Mackenzie Government, it will be remembered, and received his title on account of services rendered by the Hon. Mr. Mackenzie in his predecessor. Of course Sir Albert has been a bitter opponent of the N. P., but unfortunately for Sir Albert the tariff has had an excellent effect in his constituency. It has called into existence the Peters Lock manufactory at Moncton, the sugar refinery, cotton mill and several other industries at that place, and so Sir Albert is very much afraid that he will not be re-elected. The first indication which he gave of fear was the establishment of a Grit party in opposition to the very ally considered Times, of Moncton, but now he has posted off home because one of the wealthiest and most influential men in the county, who had formerly supported him, has been nominated as the Government candidate. We do not sympathize with Sir Albert in his tribulation, because he has been a turncoat, having in his address to the electors in 1872 declared himself a supporter of the Government of Sir John A. Macdonald, but he has since been a most violent partizan of the Grits. His majority at the last election was 644, but there is good reason to believe that he will be defeated at the next election.

The Grits compare the population of some of the largest communities under the Redistribution Bill with some of the smallest, with the object of showing an apparent inequality. Under Mr. Mowat's Bill of 1874 we find the following, amongst many other inequalities:

Toronto West	31,223
Cornwall	7,114
Toronto East	24,869
Brantford	10,475
Hamilton	11,493
Brant, North	11,493
Brant, South	11,493
Stromont	11,493
Kent, West	29,062
Elgin, West	10,796

It would be useless to multiply instances of this sort of thing. Let any person take the population of the constituencies as fixed under Mr. Mowat's Bill of 1874 and that of the present Government, and he will see that under Sir John A. Macdonald's Bill there has been, as claimed, a fair equalization of the population of the constituencies.

The Mail makes the following pertinent remark: "Mr. Mackenzie's protest that he did not read Mr. Mowat's Bill, and that his telegram will be received with profound respect. But he will be good enough to explain (or some one must explain for him) how it comes that all his friends know immediately the contents of the Bill, and that it was not communicated to him by Mr. Mowat, who may be sure. Will Mr. Blake explain how he got the information?"

The growth of traffic through the St.

Canal has been very rapid, as is shown by the following returns for the first three months of the year 1892:

1890	Ships 54	Receipts \$184,000
1891	500	500,000
1892	500	500,000

Those who abused the late Earl Deaslove, because of the large purchases of shares in the Company made by the British Government under his direction, will now, perhaps, admit that the investment was a wise one. The value of the shares has largely increased, and thus the far-sighted statesman made good commercial investment and secured besides a great political object.

Mr. Mackenzie is as consistent as the rest of his party. A short time ago he declared that vested interests created under the tariff would have to be respected and that his policy, in case of the success of his party in the next elections would be to destroy the N. P. gradually. Now he says:

As to the National Policy, for the one part nothing would restrain him from expressing his views on the subject, and for the other part, he is a national unity and a national crisis. He is likely to be in a position to carry out either of the policies which he has outlined.

DOMINION PARLIAMENT.

FOURTH SESSION—FOURTH PARLIAMENT.

TUESDAY, MAY 11.

The House went into Committee on the Redistribution Bill.

The clauses relating to North West, Halton and South Wellington were struck out by the Premier. A few other changes were made. Mr. Deaslove made an additional clause, containing a provision similar to the Ives Bill, which is that candidates for election to the Commons shall deposit \$200, the amount to be returned to the successful candidate and other candidates polling one-half the votes of the winning candidate. Mr. Blake opposed the deposit of \$200, and moved that it should remain at the figure of \$100, on similar conditions to those mentioned above. The Deaslove clause was carried. It was provided that polling in Muskoka should take place on the same day as in other places. Mr. Blake suggested that polling in Muskoka should be simultaneous with the rest of the Dominion, and Sir John promised to consider the matter before the third reading.

Sir Charles Tupper then moved his Grits railway resolutions, and in so doing spoke of the great importance of the scheme. The resolution was reported from committee and a Bill founded thereon was introduced and read a first time.

After reading one of the bills the House resumed the consideration in Committee of the Bill respecting Insolvent Companies. The bill was reported with amendments and a third reading ordered for to-day.

Mr. Mowat moved to introduce a Bill to amend the Insolvency Act of 1860, being an Act already introduced with some amendments. The House adjourned at 2:30 a.m.

News Condensed.

—The Conservatives of St. Brant have nominated Mr. Alfred Watts for the Commons.

—Two convicts walked out of the Central Prison on Tuesday. One of them was a man who had been in the prison for several years.

—A match has been arranged between Boyd and Laycock for a race on the 20th, on 3rd of July, for 4000 a side.

—Dr. J. Long has been elected M. P. for the county of St. Brant.

—The Jewish refugees at Brody are in great misery. There are about 7,000 there, and the daily arrivals are largely in excess of the departures.

—An old man named Bertrand, aged 90, was struck by a train near St. Henri on the 10th, and will probably die from the effects of the shock.

—A vacancy has been caused in the Commons by the death of Mr. McConville, who took place on Wednesday.

—Numerous abandoned vessels and quantities of wreckage have been sighted off the coast of the Gulf of St. Lawrence. The wreckage of a ship was embedded in an ice floe for 32 days, and her crew were nearly starved. From Cape Ray can be seen 43 ships and barges and 8 wrecks, which are held in the ice fields. A heavy gale is raging and great loss of life and shipping is feared.

Don't Be Alarmed.

At Bright's House, however, or any disease of the kidneys, liver or urinary organs, Dr. Hays' will certainly and lastingly cure you, and it is the only thing that will.

W. H. Hart, Esq., 128 Amherst street, Montreal, in speaking of Dr. Smith's Great German Worm Remedy, says he found it to operate successfully after only two doses and he had tried other remedies without success.

Chas. J. Smith, Esq., of this city, says: "I was troubled by a worm in my eye, and Dr. Smith's Great German Worm Remedy cured me. I was troubled by a worm in my eye, and Dr. Smith's Great German Worm Remedy cured me. I was troubled by a worm in my eye, and Dr. Smith's Great German Worm Remedy cured me."

Dr. Smith's Great German Worm Remedy cures all worms in the human system, and is the only medicine that will.

Price 25 cents, of all Druggists.

A CARD.

To all who are suffering from the errors and excesses of youth, nervous weakness, early decay, loss of manhood, etc., I will send a card that will cure you, FREE OF CHARGE. This card is the only one that will cure you, and it is the only one that will.

Dr. Smith's Great German Worm Remedy cures all worms in the human system, and is the only medicine that will.

Price 25 cents, of all Druggists.

Popular Demand.

The great superiority of Dr. Smith's Great German Worm Remedy, over all other cures, is attested by the immense popularity of the old and established remedy for the cure of Coughs, Whooping Cough, and all diseases of the Throat, Chest and Lungs.

Why are we ill?—Why do we have throat with little or no pain?—Why do we have the lungs and the chest with little or no pain?—Why do we have the stomach and the bowels with little or no pain?—Why do we have the kidneys and the bladder with little or no pain?—Why do we have the liver and the gall bladder with little or no pain?—Why do we have the spleen and the pancreas with little or no pain?—Why do we have the heart and the lungs with little or no pain?—Why do we have the brain and the nerves with little or no pain?—Why do we have the skin and the hair with little or no pain?—Why do we have the eyes and the ears with little or no pain?—Why do we have the nose and the mouth with little or no pain?—Why do we have the throat and the chest with little or no pain?—Why do we have the stomach and the bowels with little or no pain?—Why do we have the kidneys and the bladder with little or no pain?—Why do we have the liver and the gall bladder with little or no pain?—Why do we have the spleen and the pancreas with little or no pain?—Why do we have the heart and the lungs with little or no pain?—Why do we have the brain and the nerves with little or no pain?—Why do we have the skin and the hair with little or no pain?—Why do we have the eyes and the ears with little or no pain?—Why do we have the nose and the mouth with little or no pain?—Why do we have the throat and the chest with little or no pain?—Why do we have the stomach and the bowels with little or no pain?—Why do we have the kidneys and the bladder with little or no pain?—Why do we have the liver and the gall bladder with little or no pain?—Why do we have the spleen and the pancreas with little or no pain?—Why do we have the heart and the lungs with little or no pain?—Why do we have the brain and the nerves with little or no pain?—Why do we have the skin and the hair with little or no pain?—Why do we have the eyes and the ears with little or no pain?—Why do we have the nose and the mouth with little or no pain?—Why do we have the throat and the chest with little or no pain?—Why do we have the stomach and the bowels with little or no pain?—Why do we have the kidneys and the bladder with little or no pain?—Why do we have the liver and the gall bladder with little or no pain?—Why do we have the spleen and the pancreas with little or no pain?—Why do we have the heart and the lungs with little or no pain?—Why do we have the brain and the nerves with little or no pain?—Why do we have the skin and the hair with little or no pain?—Why do we have the eyes and the ears with little or no pain?—Why do we have the nose and the mouth with little or no pain?—Why do we have the throat and the chest with little or no pain?—Why do we have the stomach and the bowels with little or no pain?—Why do we have the kidneys and the bladder with little or no pain?—Why do we have the liver and the gall bladder with little or no pain?—Why do we have the spleen and the pancreas with little or no pain?—Why do we have the heart and the lungs with little or no pain?—Why do we have the brain and the nerves with little or no pain?—Why do we have the skin and the hair with little or no pain?—Why do we have the eyes and the ears with little or no pain?—Why do we have the nose and the mouth with little or no pain?—Why do we have the throat and the chest with little or no pain?—Why do we have the stomach and the bowels with little or no pain?—Why do we have the kidneys and the bladder with little or no pain?—Why do we have the liver and the gall bladder with little or no pain?—Why do we have the spleen and the pancreas with little or no pain?—Why do we have the heart and the lungs with little or no pain?—Why do we have the brain and the nerves with little or no pain?—Why do we have the skin and the hair with little or no pain?—Why do we have the eyes and the ears with little or no pain?—Why do we have the nose and the mouth with little or no pain?—Why do we have the throat and the chest with little or no pain?—Why do we have the stomach and the bowels with little or no pain?—Why do we have the kidneys and the bladder with little or no pain?—Why do we have the liver and the gall bladder with little or no pain?—Why do we have the spleen and the pancreas with little or no pain?—Why do we have the heart and the lungs with little or no pain?—Why do we have the brain and the nerves with little or no pain?—Why do we have the skin and the hair with little or no pain?—Why do we have the eyes and the ears with little or no pain?—Why do we have the nose and the mouth with little or no pain?—Why do we have the throat and the chest with little or no pain?—Why do we have the stomach and the bowels with little or no pain?—Why do we have the kidneys and the bladder with little or no pain?—Why do we have the liver and the gall bladder with little or no pain?—Why do we have the spleen and the pancreas with little or no pain?—Why do we have the heart and the lungs with little or no pain?—Why do we have the brain and the nerves with little or no pain?—Why do we have the skin and the hair with little or no pain?—Why do we have the eyes and the ears with little or no pain?—Why do Daily Intelligence.

BELEVEILLE, FRIDAY, MAY 12

City and Vicinity

There were no registrations at the Police Station this morning.

The Finance Committee of the City Council will meet this evening.

Mr. LEVARDON, Secretary for the Canada Consolidated Gold Mining Co., is in the city.

Mr. J. W. WALKER has secured the contract for supplying the city with nails this year.

The adjourned meeting of the Belleville Cricket Club will be held this evening at the Hub saloon.

The annual meeting of the Bay of Quinte Yacht Club will be held next Wednesday evening, at Hankley's.

Dr. ALLEN was fined \$1.00 and costs at the Police Court this morning for driving in the public streets.

The Fire Committee will recommend the usual grant to the Fire Brigade to assist them in celebrating the Queen's Birthday.

Two hundred and seventy-seven names have already been appended to the petitions against the Busby Island ferry route and in favor of the lower route.

Mr. RONNIE began ballasting the street railway track with coal dust a few days ago, but with unsatisfactory results, and no more of that material will be used.

Three members of the Cricket Club will, it is probable, leave the old cricket field on speculation, as it is hardly likely that the club will be able to raise a sufficient sum to pay for it.

The date of the concert to be given for the benefit of St. John's Church has been fixed for Wednesday next, the 17th inst.

The concert will be held in Mr. Oldham's Academy of Music, John St.

Those merchants whose awnings are low enough to interfere with the late of ordinary-sized pedestrians should raise them as soon as possible, as it is their duty to be compelled to do so, besides being obliged to pay for the trouble of the compulsion.

Mr. STANTON, conductor on the Midland Railway, informs us that only three large business premises are left in Hastings—those of Highgate & Co., Peters, and Knolly. The village, he says, presents a most desolate appearance from the railway.

The Directors of the Mechanics' Institute have decided to engage Mr. Oscar Wicks for one lecture, and that celebrated gentleman will accordingly tell the people what he knows about decorative art, probably in the City Hall, on Tuesday evening, the 23rd inst.

An effort will be made to have the construction of the new Government building laid on the 24th inst., with Messrs. Macdonald and more than ordinary impressiveness. If possible, the Grand Master of Ontario (Col. Moffat, of London), and the Minister of Public Works will be present.

The Directors of the Midland Railway have allocated the contract for building the line of railway between Brigidgewater and Perth, a distance of fifty-two miles, to H. J. Beemer, contractor, who has also the contract for the new line between Peterboro' and Omsame. The whole work will be completed within one year from the date of contract.

A lady who was subpoenaed to appear as a witness in a certain case at the Police Court this morning received an anonymous communication strongly advising her not to appear, but to plead illness, as a cause for remaining away, because if she appeared something would be done to injure her in some way. Notwithstanding this, the lady appeared and gave evidence, quietly and competently, in an anonymous letter to the Chief of Police.

The fence around St. Thomas Church is being pulled down. The low stone wall will be repaired, and instead of a new fence, a multi-banded capstone of cement will be placed on the top of the old wall. The old fence was made of stone and will not last the handsome ground immediately. The old fence has stood for upwards of eighteen years, and has of late years been in a state of decay.

There should be a very large attendance at the meeting to be held in the City Hall this evening to consider the car works scheme. Some speakers will be present. These meetings are merely for the stockholders and those directly interested. But this is a mistake: they are public meetings, and any taxpayer who can be present should make it a point to do so. Every taxpayer, however, is directly interested, in a sense, and he should be there to watch his interests. Let the City Hall be crowded.

It having been stated that Capt. Jellett, leader of the ferry steamer *Prince Edward*, had failed in his duty and given offence to the Ameliasburgh people by not running the ferry yesterday, a letter was written to the ferry steamer this morning and learned the facts of the case. Throughout yesterday the wind, as everyone knew, was very high from the east, blowing at a gale, and a heavy sea was running all day. The only row boat that crossed the bay yesterday in the vicinity of the city was early in the morning, and it was brought ashore by the Captain. The ferry steamer, however, was not out.

He brought over a relative, Mr. S. Reddick, to the city. Both men told Capt. Jellett that it would be impossible to effect a landing at the Prince Edward wharf with the ferry. Mr. E. Reddick said that he had never seen such a heavy sea on the bay, and that he refused to take the boat across to the opposite shore. Capt. Jellett then inquired of the officers of the *Prince* and *Quinte* if it would be advisable for him to make the attempt, and they, without exception, urged him not to do so, as it would be impossible for him to make the landing. The wood used on the *Quinte* is kept stored at Ferry Point, but the officers of that steamer dared not attempt to land. If it had been possible for Capt. Jellett to have run his boat across, it may be taken for granted that he would have done it.

The intimations referred to are no doubt malicious and groundless.

This morning the Police Magistrate dismissed the case of E. E. Reddick, charged with allowing gambling in his saloon. The reason why he dismissed the case was, that there was doubt in his mind whether playing for drinks could be considered as gambling, and he gave the defendant the benefit of the doubt. It was for him to make the law, and that the practice of keeping a backgammon board, a Mississippi board, or any similar game for the amusement of customers was highly objectionable, for so long as the use of those boards was not charged for, they were as much a part of the saloon as the wares they were in liquor. To make the game more interesting a stake was played for, the stake being the drinks, and thus men were led into drinking more than they really wanted, and much more than was good for them. The Magistrate also strongly condemned the comments on this case which appeared in a recent issue of the *Ontario Freeman*. Those comments were not only unjust and unnecessary, but they entirely overlooked the essential feature of the case. However, he would enter his protest against newspapers commenting on cases while they were yet pending, and thus endeavoring to influence opinion in any particular direction. The newspaper in question had condemned the action of the Ottawa Chief of Police in bringing to justice violators of the liquor law—and by so doing had indirectly condemned our own Chief of Police, who had acted in a perfectly proper manner. He wished it distinctly understood, however, that Chief McKinnon, in taking the action he had, had simply done his duty, and if he had not taken that action he would have failed in his duty. He would, further, say that he became aware of any police officer, knowing of any violation of the liquor law and failing to report it, or of the Chief of Police failing to act upon such violation, he would file a complaint against him before the Commissioner.

WEATHER PROBABILITIES—Toronto, May 12.—Lake, strong wind, with rain, gales from the east and north, cloudy to rainy weather.

DESPORTS ITEMS.—The Day of Quinte R.R. Co. are extending their line at Deerp, onto eastward to Unger's Island, along the bay shore. We understand that the Company intend to start some new industries in any particular direction. The newspaper in question had condemned the action of the Ottawa Chief of Police in bringing to justice violators of the liquor law—and by so doing had indirectly condemned our own Chief of Police, who had acted in a perfectly proper manner. He wished it distinctly understood, however, that Chief McKinnon, in taking the action he had, had simply done his duty, and if he had not taken that action he would have failed in his duty. He would, further, say that he became aware of any police officer, knowing of any violation of the liquor law and failing to report it, or of the Chief of Police failing to act upon such violation, he would file a complaint against him before the Commissioner.

NEW GOODS, new goods, new goods!—New spring tweeds, new dress goods, new cashmere, new priors, new embroderies, new lace curtains, lampreline, lace, edging, corsets, girdles, neck ties, collars, cuffs. The cheapest dry goods and clothing house in the city.

JAMES HENNESSY.

CIVIL AFFAIRS.

THE NEW CHIEF SECRETARY AT DUBLIN.

NO CLUE TO THE ASSASSIN.

AN INFLAMMATORY AND SEDITIOUS MANIFESTO.

LORD CAVENTISH'S FUNERAL.

THE POLICY OF CONCILIATION.

Mr. Trevelyan, the new Chief Secretary, has arrived in Dublin and has been cordially received by the people.

No clue has yet been discovered as to the identity of the whereabouts of the assassin, though arrests are as plentiful as blackberries.

The Irish Republican Brotherhood have issued an inflammatory and seditious manifesto which virtually incites Ireland to a renewal of the outrage and horror which have so long disgraced Ireland; it urges them to assassinate Messrs. Parrell and Davitt for their constabulary disposal; and calls on the people to aid in every way men who have butchered the Chief and the Under Secretary on Saturday last.

The London despatches about the melancholy affair give a full account of the funeral of Lord Frederick Cavendish, and a resume of the discussion in the House of Commons of the provisions of the new remedial measure. Mr. Trevelyan's speech for the Irish Republic and the repression of crime. The policy of conciliation is advocated in the clause of the whole bill.

A REVIEW REPRODUCES THE ASSASSIN. PARIS, May 12.—John O'Leary denies that Fenians have the policy of assassination, and says O'Donovan Rossa no longer represents any revolutionary sentiment. O'Leary says O'Leary does not think Rossa had anything to do with the Dublin murders. He says he was present at various public bodies in America and Ireland, but had never seen the playing of Cavendish and Burke to issue in dignified manifestos. He says no greater moral guilt in this particular crime than in the murder of a man and his daughter, or in the murder of a man and his daughter, or in the murder of a man and his daughter.

It was decided to recommend that the sum of \$500 be appropriated towards the purchase of a wooden lodge at O'Leary's house. It was also decided to ask the Finance Committee to appropriate \$2,000 for poor and sanitary purposes for the current year, and that \$300 be at once placed to the credit of the Women's Christian Association for the Home for the Friendless.

THE PRINTER COMMITTEE met and passed a small session.

PRESENT.—At. Stubb (Chairman), Petrie, Melnich, Vandusen, Rignell.

The question of a grant to the Fire Brigade to aid in the celebration of the Queen's Birthday was considered, and it was decided to recommend that \$500 be appropriated for that purpose.

The question of telephonic communication between No. 2 Fire station and the Police station was also considered, but no action was taken.

Social in John St. Church.

A very pleasant evening was spent last night in the school room adjoining the church. Although the services were not very numerous, many from being present, it did not detract from the faithful who were more than amply rewarded with the entertainment. The occasion was the closing meeting of the Literary Society. Thomas McKinnon presided over the affair. Devotional exercises, in which Rev. Messrs. Burns and Mitchell took part, the choir gave a beautiful rendering of "Hail Song Morning." A number of pieces were excellently rendered on the piano by several young ladies, and Madame Tongue organ. Dr. Gibson read an able and interesting paper upon the Tongue, considered physiologically and as an instrument of speech. Good sense and genial humor were shown in the paper, and they were most take place, but in spite of the long winter, mosquitoes and black flies, it was a good country for the man of letters and stout heart. He expressed the opinion in the strongest possible terms that Ontario was destined to be the manufacturing center for the great North-west. And if this be the case, it was sheer folly in men trusting their capital in the hands of little syndicates or otherwise in, vesting away from home, when the money was required here, and now, to start the industries which the times demanded. He knew men who had been burned or would be, through the fever of speculation, who thought they were building a fortune by enterprise and energy. It was nonsense to sit down and dead tears over the want of business and the depopulation of the country. People followed capital. If men sent away their capital, they would have no people to build up a thriving and industrious city, such as Belleville might easily become, they should use their money at home, and they would have a far better result, than the risks gained in speculation, if successful. But they should remember how many must suffer loss by undue speculation. At the close, the choir sang, and the evening closed by enterprise and energy. It was nonsense to sit down and dead tears over the want of business and the depopulation of the country. People followed capital. If men sent away their capital, they would have no people to build up a thriving and industrious city, such as Belleville might easily become, they should use their money at home, and they would have a far better result, than the risks gained in speculation, if successful. Out of Evil Cometh Good

WHAT MR. BLAKE'S VISIT TO THE MARITIME PROVINCES HAS DONE.

(From the Halifax Herald.)

Mr. Blake should take another run through the Maritime Provinces. His last trip was so much service to the Liberal cause that it would pay them to employ him in a similar manner.

He is a man of the people, and a man of the people's choice.

He is a man of the people, and a man of the people's choice.

He is a man of the people, and a man of the people's choice.

City and Vicinity

There are 30 carters in the city.

The carters' stands are not yet located.

Two sets of O'Connell arrived last night, and are looking handsome.

THIRTY-FIVE cars of emigrants have passed here since Saturday night.

Prof. L. B. Arnold, of Rochester, the central authority on dairying, is in the city.

The annual meeting of the members of the Mechanics' Institute will be held this evening.

The annual meeting of the May of Quins Yacht Club will be held tomorrow at Hambley's.

Mr. McCREATY's concert in Holloway St. Methodist Church this evening should be well attended.

A good entertainment is promised at the concert at St. John's Church tomorrow evening.

The City Council, as a whole, appears to be opposed to the principle of exempting new industries from taxation.

The License Commissioners have extended Robt. Arlins' license two months, making three months' extension in all.

The steam school which is now at work on the "main line," excites the wonder and admiration of the Belleville people.

The funeral of the late John E. J. of Brighton, took place yesterday afternoon, and was attended by several friends from Belleville.

Many friends of Mr. Henry Which in Belleville will regret to learn that he is seriously ill with brain fever at his home in Hamilton.

The "Horse Kicks" Company arrived this morning from Peterboro, where they played last evening to an immense audience.

The shipment of cattle is booming on the Grand Trunk. Immense numbers have passed east during the past three or four days.

One thousand barrels of flour ground at Peterboro came here over the G. J. R. on Monday. It was part of a consignment to Liverpool.

There was a heavy frost last night, and a still heavier one the night before, when half an inch of ice is reported to have formed on water.

The Oddfellows' Band has secured the First Brigade Band of Peterboro to play at the picnic at Massena Point on the 24th.

As near as can be estimated the total loss by the fire at Hastings is \$92,810, on which there are insurance policies to the amount of \$15,000.

COOL BUSINESS and company arrived here today from Deseronto, and went out this afternoon to Campbellford, where they will perform this evening.

Mr. Diakon, travelling auditor of the Midland Railway, is in the city on business connected with his department. This is his first official visit to the city.

The connection between the G. J. R. and Midland at the station here was not made on Sunday, as expected, owing to the incompleteness of the preparations.

INCENDIARIES have been operating in Peterboro as well as in Belleville. On Saturday night several houses were set on fire, but fortunately no serious damage resulted.

LAST evening Messrs. J. A. F. and Wellington Anderson, young men of Burlington, went up the street with a span of mules, seven fine sets of harness, and other settlers' equipment, to take the train for Brantford. We understand that the intention is to take up land at once, and become settlers of the Northwest. We wish them every success.

DOMINION PARLIAMENT.

FOURTH SESSION—FOURTH PARLIAMENT.

—MONDAY, MAY 15.

In the House of Commons Sir Charles Tupper's resolutions relative to subsidies to railways were considered in Committee and reported. The Bill to amend the Statute in relation to the third time, after an amendment moved by Mr. Black had been voted down. Sir John Withers had his bill to amend and consolidate the public lands of the Dominion, and the Bill to amend the Statute in relation to the third time, after an amendment moved by Mr. Black had been voted down. Sir John Withers had his bill to amend and consolidate the public lands of the Dominion, and the Bill to amend the Statute in relation to the third time, after an amendment moved by Mr. Black had been voted down.

Mr. F. R. Yorkton, late of the Niagara Standard, now of the Peterborough Examiner, was presented yesterday, with a beautifully ornamented gold pocket watch as a souvenir by a number of his Niagara friends.

The Mayor of Belleville will no longer sit on the Board of Directors of the Midland Railway. The Council decided, by a unanimous vote last evening, that it was not advisable, under present circumstances, for the city to be represented on that body.

The Rev. A. O. Hanson, of the West End Methodist Church, Ottawa, formerly of this city, has been granted leave of absence to leave today for England.

His pupil will be occupied in the month by Mr. Elliott, of Victoria College, Ontario.

This Mission office will be after this date a regular book store. Mr. R. kindly granted leave today for England.

The Coming Contest.

The speech from the throne with which His Excellency the Governor-General closed the fourth session of the fourth Parliament of Canada, concluded with the announcement, "It is my intention to cause this Parliament to be dissolved on the 27th inst." For two months past or upwards the Opposition press have been publishing rumors that Parliament would be dissolved after the close of the present session, but these statements were dismissed as idle talk, knowing that time was on the side of the Government—that the splendid results which have followed their patriotic policy could not fail to be demonstrated during the next year. The official announcement made by His Excellency shows, however, that Sir John A. Macdonald and his associates feel that they need no further strengthening in the estimation of the people, and that, in the interest of the country, they are prepared to forego the legitimate advantage which another year of prosperity and progress would give them, and have the decision of the people taken at once on the question whether the policy of protection shall be continued or whether the policy shall be changed with such energy and persistency by the Opposition that capitalists—who propose to invest in manufactures in this country, having believed that protective policy may possibly be abandoned as the result of the next appeal to the people, which cannot be delayed beyond fifteen months, decline to make their investments.

It being, therefore, imperative, in the interest of the country, that the question should be settled—that the people should decide in the premises, and that the newly created constituencies in Ontario and Manitoba should be represented in Parliament, an immediate appeal to the people has been decided upon.

It is thus certain that within a few days Parliament will be dissolved and the decision of the people given at the polls. In a majority of the constituencies of the Province the nomination of candidates has already taken place, and it is the duty of the Liberal-Conservative party to follow the example. We therefore learn with pleasure that arrangements have been made for holding a mass meeting in Belleville on Saturday, the 27th inst., for the nomination of a candidate. The prospects of success are of the most encouraging character, and we have no doubt that a gentleman will be selected who will relieve West Hastings from the reproach of being the only constituency in the Bay district that is represented by an opponent of the Government.

The Export Flour Trade.
Cornered in its arguments as to the decline of the export flour trade under the N. P., the Globe attempts to shift its ground by stating that the N. P. has caused the decline in the export flour trade.

The Belleville *Intelligencer* makes a blunder. It says the attitude of the *Globe's* editor in the export flour trade is "a self-evident thing." It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing.

The *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing.

The *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing.

The *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing.

The *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing.

The *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing.

The *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing.

Editorial Privileges.

Another notable comment to the N. P. has been made in the person of Mr. Henry Lyman, one of the most influential financiers of Montreal. In a letter which appears on our first page, "he declares his position in a satisfactory manner."

During the debate on the tariff, Mr. M. H. Gault, M. P., submitted a statement as to the industries of Montreal, showing that the number of employees in the city had increased from 6,020 in 1876 to 13,945 in 1881.

The press, says the *Kington News*, are circulating a statement to the effect that arrangements have been made between the Premier and Messrs. Boyle and O'Donoghue for the purchase of the Catholic vote in the approaching election. The usual course of these papers is to discourage the abilities which have secured to Sir John Macdonald a long continued ascendancy in the Council of the country, by attributing to him "outlets" which it is supposed to stand in him on all occasions. Now, what man, possessed of a grain of sense, could imagine that the Irish of Canada are a pack of fools, and that they are to be deceived by the statements of the *Kington News* and Messrs. Boyle and O'Donoghue? If the Irish are driven to the fabrication of insinuations to the Irish people, and falsehoods about Sir John, they should invent something having at least the appearance of probability.

It is to be regretted that Mr. Geo. Hilliard, M. P. for West Peterborough, declined necessary, for business reasons, to decline nomination, which was tendered him by a unanimous vote of the party convention. Mr. Hilliard is a capable, energetic, and not a doubt a fitting successor will be found.

The Grits of West Hastings will hold a convention to-morrow for the purpose of nominating a candidate for the Commons. We predict the re-nomination of that party's consistent member of the party, Mr. James Brown, M. P., who has past exhibitions of contempt for the local Junts will be necessary be condoned.

The Peterborough Accident.

The *Peterborough Review* gives the following further particulars of the fatal accident which occurred on the 17th inst. It is customary for the train on the Grand Junction division of the Midland to back into the Union Station and when leaving, to back out, as it was a switch, situated just north of Smith street, and about 100 yards above the bridge which is supposed to have caused the death of this poor workman. A brakeman is placed on top of the train car, and attached engineer of anything that may be on the track ahead. The deceased had this position on way freight No. 9, about 2 o'clock, and was going southward, and was not a passenger.

The Belleville *Intelligencer* makes a blunder. It says the attitude of the *Globe's* editor in the export flour trade is "a self-evident thing." It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing.

The *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing.

The *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing.

The *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing.

The *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing. It is considered that the *Globe's* attitude in the export flour trade is a self-evident thing.

—Lieutenant Danneberg and his party of 100 men, who were sent to Liverpool yesterday for New York. —Mr. Stansfield Druggan has resigned his position in the Department of Agriculture, and will oppose Mr. Cargill in L'Islet.

—The trouble with the male factory boys at Toronto has been settled. All the men have received signed advice to leave the city. —Guile's counsel, desiring of obtaining a new trial, is circulating petitions for the purpose of obtaining a new trial.

—The Rev. Edward Vaughan died at Tracadie, Ontario, N. B., on the 18th. For 24 years he had been a member of the clergy. —The police opened a parcel received at the house of the Duke of Devonshire, and supposed to contain explosives, but it was merely a sample of one.

—The arrival of vessels at New York on the 17th results, the unprecedented number of ships including 11 steamers, 23 barges, 10 brig and 45 schooners. —The police opened a parcel received at the house of the Duke of Devonshire, and supposed to contain explosives, but it was merely a sample of one.

—The Montreal Bank managers, insurance agents, and loan companies are preparing to contest the legacy of the Lord Government's new measure of taxation. —The Ottawa Police Magistrate has decided that it is not an infraction of the law for a groom to deliver liquor to a customer after 7 o'clock on Saturday night.

—It is rumored in Winnipeg that General Manager Haddon of the Grand Trunk Railway has been appointed General Manager of the Canadian Pacific Railway. —The struggle against the Bay of Tunis and French protection is still continued by all the Khedive, who will only acknowledge the authority of the Sultan.

—A fireman on the steamer *Amelia* was killed and several hands seriously injured by the explosion of a boiler while raising off Sandusky, Ohio, yesterday. —The Island Revenue Department has notified the private clubs of Montreal that they will have to pay liquor license, from which they have been hitherto exempt.

—A company to manufacture corn starch, dextrin, &c., has been started at Toronto with a capital of \$200,000. The building will be on the Esplanade, and will cost \$20,000. —The case of the municipality of Marcelline against the ex-Minister Eugénie, to recover possession of the plot presented to the late Emperor, has been decided in favor of the Emperor.

—The barque *Herman*, after being ten days in the ice, has arrived at Newcastle. She reports that about 1000 men and 1000 tons of goods were stuck in the ice, which is very thick around the Magdalen Islands. —Twelve hundred British immigrants—the largest number of that race—have been received in Montreal on the 18th by the Ontario. The Government's Pacific railway policy is bearing its fruits.

—Gen. Ross has been charged by the Pacific Syndicate with claiming property papers on false pretences. The trial is expected to be an interesting one. The General expresses his intention of suing for damages. —Fred Chamberlain has been charged with the murder of a woman named Mary Ann (Maie) Ross, and his wife died on Tuesday from poison. Chamberlain was incited in his hands from a man who was his wife's husband. His wife was poisoned from drinking his beer. The effect was swift, and their bodies were badly disfigured, and were with difficulty disposed of.

—The Ontario Bureau of Industries has been authorized to the Board of Agriculture of Ontario acquire for information on the acres cultivated, crops grown, cattle raised, property owned, etc., by farmers in each school district. The land is to be divided into lots, and a return of the facts collected from the farmers in his or her district to the Bureau.

—The Irish judges are opposed to the proposed amendment to the Irish Land Act, which would give the tenant a right of purchase, and would be a step towards the repeal of the Land Act. —The position of affairs in Egypt is unchanged. The French and English squadrons have sailed for Alexandria, and a Italian squadron is assembling in Messina. The Circassian prisoners which have been released say that while in their dungeon they were refused food and sleep, were beaten and insulted, and forced to sign incriminating documents by the act of Arabi Bey.

—A Victoria (B. C.) despatch says that Port Moody, which twenty months ago was hardly known except to a very few, is now being visited daily by a large number of persons, some for curiosity, some for pleasure, and a great many in eager quest of fish. Clearlake is now open to the public, and a steamer has been chartered for a piece of salmon, and the salmon are being sold at a high price. —The position of affairs in Egypt is unchanged. The French and English squadrons have sailed for Alexandria, and a Italian squadron is assembling in Messina. The Circassian prisoners which have been released say that while in their dungeon they were refused food and sleep, were beaten and insulted, and forced to sign incriminating documents by the act of Arabi Bey.

The Circassian prisoners which have been released say that while in their dungeon they were refused food and sleep, were beaten and insulted, and forced to sign incriminating documents by the act of Arabi Bey.

The Egyptian Revolution.

CAIRO, May.—The liberated Circassian officers affirm that while in prison, they were tortured by order of Arabi Bey, were prevented from sleeping, were beaten, and trampled, that water was withheld from them, and that they were forced to sign confessions that they had conspired against his life. The Ministry have suppressed two hostile newspapers for publishing articles hostile to the Khedive.

CONSTANTINOPLE, May 18.—The Porte has strongly urged France and England to recall their fleets from Alexandria. The French and English squadrons sailed from Suez Bay last evening for Alexandria. The British contingent, consisting of the *Invincible*, the *Bittern*, and the *Falcon*, Vice-Admiral Seymour commanding.

ROME, May 18.—The *Papale Romano* states that the Italian squadron is assembling at Messina in view of eventualities in Egypt. —The position of affairs in Egypt is unchanged. The French and English squadrons have sailed for Alexandria, and a Italian squadron is assembling in Messina. The Circassian prisoners which have been released say that while in their dungeon they were refused food and sleep, were beaten and insulted, and forced to sign incriminating documents by the act of Arabi Bey.

W. T. Hart, Esq., 129 Ashurst street, Montreal, speaking of Dr. Smith's great German, Worm Remedy, says he found it to be so successful after only two doses, and he had tried other remedies with the same result. —The position of affairs in Egypt is unchanged. The French and English squadrons have sailed for Alexandria, and a Italian squadron is assembling in Messina. The Circassian prisoners which have been released say that while in their dungeon they were refused food and sleep, were beaten and insulted, and forced to sign incriminating documents by the act of Arabi Bey.

Charles Bates, 304 Heredia street, says: "If you want the best Worm Remedy, get Dr. Smith's. It performed its office in my family. Mr. Shriver, 130 N. 2nd street, says he is a doctor like a doctor on her little child, and would not be without it. Dr. Smith's Worm Remedy removed stomach and seat or pin worms from child or adult, without the use of other medicine. Price 25 cents, all Druggists."

COSTELLO'S CLOSING SALE.

We are pleased to find that our promise to give extra bargains during the next 60 days (in order to close out our entire stock) to the people of the city and country, has been the means of drawing to our store large crowds of intelligent customers, and the large sales made, our patrons have not been disappointed either with the quality of the goods, or the price paid for them. The fact of marking down all the new goods to a fraction above WHOLESALE ACTUAL COST, and the balance of the stock even below ACTUAL COST, has had the desired effect, namely, to turn the WHOLE STOCK into CASH within the above time mentioned. Although we have made LARGE SALES, our stock is unbroken, consequently we would remind householders and hotel-keepers who are in want of furnishings to call and examine our stock and prices. The ladies will please bear in mind that our prices are unexcelled in the city, and fully 50 per cent cheaper than any house in the trade. Sales for cash only, and only one price made.

RICHARD COSTELLO. NEW WASHING DRESS MATERIALS.

WE have just received from Britain several cases of washing materials for dresses, covering a large assortment of Scotch and French Gingham, commencing at 10 cents per yard. Also new patterns in Prints, Battons, Barley Cloth, Piques, &c.

TROTTER STALLION

WINFIELD SCOTT, JR.

Will stand for Mares during the season of 1897, at the subscriber's stables every night, and on each Saturday will be at the Willard House, Fred Gokley, Proprietor.

WINFIELD SCOTT, JR. FREDERICK.

Manitob

Now do we find it necessary to seek for in the

GREAT NORTH-WEST

of New York; he by Ryssdyk's Hambletonian, dam by imported "Margrave." The dam of Winfield Scott was the celebrated trotting mare "Lady Shannon," by Harris' Hambletonian—has a record of 2:28. Winfield Scott, Jr. dam

by Thomas Kiemble, grand-dam by Shakespeare, owned by Falher Brennan. Windfield Scott, Jr., with my eye, is a beautiful dark steel gray with black points; is 16½ hands high; very bloodline in appearance; is a stylish driver and has a fine way of travelling; can show a very fast pace. His proper handling would make him one of the fastest trotters on the turf. He is half brother to Thomas Scott, who trotted last year in 2:18½ and won many other good races. His sire was half brother to Monmouth Boy, Joe Elliott, Judge Folley. Windfield Scott Jr.'s sires

JACOBSON'S

TRADE MARK
JACOBSON'S
Daily Intelligence.

Italy's Jesse James Passes away.

Although Pietro Gasparoni, the renowned
brigand chief, was well advanced in his nine-
teenth year when he expired the other day in
an asylum for the poor near Naples, he can
hardly be said of him with truth that he died
as a "good old age." No more truthful and
merciful ruffian ever adopted his bandit's
profession than this one of the Gallesopoli.

When upon, about half a century ago, the
members of the native province considered
the significant sobriquet of "The Terror of
the Abruzzi," (which his reputation greatly
belied him), positively revolting in crime,
and was a stark madman in every branch
of atrocity. When a member of the
disappointment in love. At that time he
had spent three years at the sword in the
service of a wealthy farmer, of whose only
daughter he had become enamored. The
disaster of this presumptuous passion, upon
his discovery by the father, was
Gasparoni's downfall. As a result, he was
promptly "sent to the hills," joining a pre-
determined band of robbers, and becoming
the president, and persuaded his
men to join him in a series upon
his native province. He was a
man of great energy and ability, and
in this expedition he displayed qualities
which have not been surpassed since.

He was a man of great energy and ability,

Daily Intelligence.

REBELLEVILLE, THURSDAY, MAY 25

City and Vicinity.

Five prisoners and a tramp were registered at the police station this morning.

Some vandals have been mutilating the papers in the Mechanics' Institute reading room.

The remains of Michael Mohan were conveyed to his home in Brockville on Tuesday night.

Work of paving Front St. between Campbell and Hotel St. will be commenced next Monday.

The Minister of Customs arrived in town yesterday morning, and has left for the northern townships.

Members of the Young Men's Liberal-Conservative Association are reminded of the meeting of that organization to-night.

Mr. M. Matzow, Superintendent of the Deaf & Dumb Institute, is temporarily absent, attending the funeral of his wife's mother.

Michael Corrie, who has his leg taken off on the Grand Trunk on the 13th inst., will probably live, as he is gaining strength every day.

Mama Wilmet and Wilmet will not go to the northern part of the lake to place bass and salmon trout in the small lake, until Monday.

The body of the late Mr. A. Wilkie passed here yesterday by the noon express, on its way to Quebec, where the funeral will take place.

The ball given by No. 21 Independent Hose Company in the City Hall last night was well attended, and was successful in every other respect.

A massacre of the survivors of the 15th Battalion who took part in the campaign of 1866 is to be held at the Dufour House on Saturday, June 3rd.

John Dillan and Wm. Gordon were brought before the Magistrate yesterday, charged with drunkenness. They were both remanded for a week.

The inquest on the body of Michael Mohan, the victim of the railway accident on Tuesday morning, will be resumed at 7 o'clock.

A woman named Albert Wheeler, while exercising himself on the iron rings at the Point yesterday, fell to the ground and broke his arm. He was conveyed back to the city, and the injured limb was set by Dr. Gibben.

The Harbours will appear in the Metropolitan Hall to-morrow evening in a double bill—the comedy "All that glitters is not gold," and a farce, "The Stage Struck Tailor." Mr. and Mrs. Herndon will appear in both places.

We are assured by Assistant Engineer Cummins that the steam which was furnished by No. 2 engine after it got to the fire on Tuesday morning was not feeble, but even more powerful and steady than could be expected under the circumstances.

Oscar Wilde intends visiting Japan very shortly. He will remain in "that home of sin" for several months, studying Japanese art in all its branches, and will then return to America and deliver a series of lectures on that subject, illustrating them with specimens of Japanese workmanship.

The choir of St. Michael's Church gave a sacred concert in Stirling on Tuesday evening, in aid of the new church which was to be opened in that village on that day by Mr. Farrelly. It was very largely patronized by the people of the village and the surrounding country—many, it is said, being unable to obtain admission. The performance was to be greatly pleased with the performance.

MICHAEL MOHAN'S DEATH.

Coroner's Inquest on Tuesday Afternoon.

NO DECISION ARRIVED AT.

Under the order of C. L. Coleman, Esq., County Attorney, an inquest was held Tuesday afternoon on the body of Michael Mohan, who was found dead near the Canadian Road on the morning of the 22nd inst. Dr. Barlett was the Coroner, and empaneled a jury of fifteen.

The jury, after viewing the body, and the usual preliminaries having taken place, the following evidence was taken:

W. F. Pense, conductor on the Grand Trunk, testified that he had seen the body of Michael Mohan, freight conductor on the G. T. R. between Brockville and Belleville. He had known him for sixteen years, and knew him to be a man of steady, industrious habits, and temperate since his late sickness, which was about two years ago. He saw him last at Belleville, the morning of Monday, the 22nd inst., at 7:30. He had often seen the remains of men who had been killed by being run over by cars, and had picked up the remains, but he had never seen any body which had been run over presenting such an appearance as this body—especially as the car to the throat. He had seen the head taken out of the car, but never saw the body in the car. The deceased would draw his pay at Belleville. His pay for the past month was \$52.

Edward Wilson, a conductor on the G. T. R., testified that he had known the deceased eight years. He had never known him to be of dissipated habits. He had heard that while he was crossing the ocean from England to this country, recently, he had been temporarily insane. The deceased had told him that he had been advised by physicians to drink all the water he could get, and that he had been told to drink water, and that he had been told to drink water, and that he had been told to drink water.

Witness was one of the first to see the body after it was discovered. He had been informed of the accident in the morning about 2 o'clock, on which day he was on duty on the train. A quarter of an hour later he was with others in search of the body. It was found on the north side of the track, close to the fence on the west side of the track. The body was completely naked, but he wore clothes near and under the body. The coat and vest had previously been brought to the station by a brakeman. On examination, a piece of shirt was found on the iron bridge. No traces of the accident could be found west of the bridge. The appearance he would judge that the accident took place on the bridge. He was found east of the bridge, near the track. Witness was decidedly of opinion that the deceased came to his death from being struck by a train.

WILLIAM WALSH, call-boy at the G. T. R. Station, testified that he was going up the track with a lantern, about 10 o'clock, when he came across the body lying on the north side of the track, and near the Canadian Road. He came back and told the switchman, Simmons, and the turner. They went to the body. He did not see the body after that, and did not see the body in the neighborhood during the night up to the time he found the body. He did not hear any crying or calling. He found a coat and vest on the north side of the track, between the bridge and where he found the body.

A. R. CARMICHAEL, brakeman, but doing duty temporarily as switchman, testified that he was on duty in the morning a man named John Gallagher and a piece of shirt, and that he was standing at the switch, told him that a man had been cut to pieces, and asked for his lamp. He turned and went with them. They found the body in the place where the shirt and trousers 38, a watch key and a switch key. West of the switch, they found a handkerchief and a piece of shirt, and a watch key. They searched his pockets and found in his trousers 38, a watch key and a switch key. West of the switch, they found a handkerchief and a piece of shirt, and a watch key.

MICHAEL MOHAN'S DEATH.

Coroner's Inquest on Tuesday Afternoon.

NO DECISION ARRIVED AT.

Under the order of C. L. Coleman, Esq., County Attorney, an inquest was held Tuesday afternoon on the body of Michael Mohan, who was found dead near the Canadian Road on the morning of the 22nd inst. Dr. Barlett was the Coroner, and empaneled a jury of fifteen.

The jury, after viewing the body, and the usual preliminaries having taken place, the following evidence was taken:

W. F. Pense, conductor on the Grand Trunk, testified that he had seen the body of Michael Mohan, freight conductor on the G. T. R. between Brockville and Belleville. He had known him for sixteen years, and knew him to be a man of steady, industrious habits, and temperate since his late sickness, which was about two years ago. He saw him last at Belleville, the morning of Monday, the 22nd inst., at 7:30. He had often seen the remains of men who had been killed by being run over by cars, and had picked up the remains, but he had never seen any body which had been run over presenting such an appearance as this body—especially as the car to the throat. He had seen the head taken out of the car, but never saw the body in the car. The deceased would draw his pay at Belleville. His pay for the past month was \$52.

Edward Wilson, a conductor on the G. T. R., testified that he had known the deceased eight years. He had never known him to be of dissipated habits. He had heard that while he was crossing the ocean from England to this country, recently, he had been temporarily insane. The deceased had told him that he had been advised by physicians to drink all the water he could get, and that he had been told to drink water, and that he had been told to drink water.

Witness was one of the first to see the body after it was discovered. He had been informed of the accident in the morning about 2 o'clock, on which day he was on duty on the train. A quarter of an hour later he was with others in search of the body. It was found on the north side of the track, close to the fence on the west side of the track. The body was completely naked, but he wore clothes near and under the body. The coat and vest had previously been brought to the station by a brakeman. On examination, a piece of shirt was found on the iron bridge. No traces of the accident could be found west of the bridge. The appearance he would judge that the accident took place on the bridge. He was found east of the bridge, near the track. Witness was decidedly of opinion that the deceased came to his death from being struck by a train.

WILLIAM WALSH, call-boy at the G. T. R. Station, testified that he was going up the track with a lantern, about 10 o'clock, when he came across the body lying on the north side of the track, and near the Canadian Road. He came back and told the switchman, Simmons, and the turner. They went to the body. He did not see the body after that, and did not see the body in the neighborhood during the night up to the time he found the body. He did not hear any crying or calling. He found a coat and vest on the north side of the track, between the bridge and where he found the body.

A. R. CARMICHAEL, brakeman, but doing duty temporarily as switchman, testified that he was on duty in the morning a man named John Gallagher and a piece of shirt, and that he was standing at the switch, told him that a man had been cut to pieces, and asked for his lamp. He turned and went with them. They found the body in the place where the shirt and trousers 38, a watch key and a switch key. West of the switch, they found a handkerchief and a piece of shirt, and a watch key. They searched his pockets and found in his trousers 38, a watch key and a switch key. West of the switch, they found a handkerchief and a piece of shirt, and a watch key.

They found the body in the place where the shirt and trousers 38, a watch key and a switch key. West of the switch, they found a handkerchief and a piece of shirt, and a watch key. They searched his pockets and found in his trousers 38, a watch key and a switch key. West of the switch, they found a handkerchief and a piece of shirt, and a watch key.

They found the body in the place where the shirt and trousers 38, a watch key and a switch key. West of the switch, they found a handkerchief and a piece of shirt, and a watch key. They searched his pockets and found in his trousers 38, a watch key and a switch key. West of the switch, they found a handkerchief and a piece of shirt, and a watch key.

They found the body in the place where the shirt and trousers 38, a watch key and a switch key. West of the switch, they found a handkerchief and a piece of shirt, and a watch key. They searched his pockets and found in his trousers 38, a watch key and a switch key. West of the switch, they found a handkerchief and a piece of shirt, and a watch key.

They found the body in the place where the shirt and trousers 38, a watch key and a switch key. West of the switch, they found a handkerchief and a piece of shirt, and a watch key. Daily Intelligence.

BRILLVILLE, SATURDAY, MAY 27.

City and Vicinity

The cells were empty this morning.

There was no police court this morning.

The *Perrin* passed Fox River at 1:30 this afternoon.

A regular meeting of the City Council will be held on Monday evening.

Members of the Baltimore Liberal-Conservative Association this evening.

The Campbellville Cricket Club defeated that of Stirling on the 24th by nine runs.

Their defeative score was No. 1 first grade has been sent to Montreal to be regined.

The freighting of the new R. C. Church in Stirling was done by Mr. Fred. Richardson, of this city.

There was a large market this morning; the attendance of buyers and sellers being above the average.

The usual Evangelical meeting at 8:30 to-morrow evening, in Bethel Hall. Lasting one hour only.

An attempt is being made to secure a water riot in Belleville from Dr. Slade, the eminent spiritualistic medium.

A BLENK man with an accordion, accompanied by a boy with bones, made music on the market square this morning.

Rev. Prof. Moore, of Queen's University, was in the city to-day on his way to Reolin, where he will officiate to-morrow.

Rev. Mr. SCURTER presented this morning from Rathbun & Son a cheque for \$100 towards the erection of the City Mission building.

The third Hospital Trustee has now been appointed. The appointment has been left in the hands of the Provincial Treasurer.

Tax collectors of the Government who reside in Samson Ward are requested to meet in the Conservative Association rooms on Monday night.

Tax farmers of the late Chas. Wills will take place to-morrow afternoon at 2:30 o'clock. The remains will be interred with Masonic honors.

Tax Midland trains have not yet taken advantage of the connection which has been effected, at the Grand Trunk station, between the two lines.

An old dog abate on Severn's farm, on the upper railway bridge, was set on fire last night by a spark from a passing locomotive, and was burned to the ground.

As yet into the gas-pipes last night, and the consequence was that part of the night the gas would not burn, and the remainder of the night it furnished very little light.

Mr. Henderson was the "Fanchon" who sang at the Stirling evening, instead of "The Outcomer." "Fanchon" is a play that always takes well, and it is well played by the Hendersons.

Four little children belonging to the city were lost to-day, and after wandering about for three hours, were found near the G. T. R. station. The eldest was only four years old.

The Hendersons will close their season at Kingston on Saturday next, the 3rd prox. They go from there to Trevelton, then to Pluton, and will be in Kingston on Friday and Saturday.

Messrs. Farris & Hinson's office with regard to the Metropolitan Police Act, evening that they fell off their chairs, and one remained in a deep swoon until the audience had dispersed.

Rev. T.W. McVary, M.A., will preach in the M. E. Tabernacle, to-morrow morning and evening. A public reception will be given him on Monday evening following at 8 o'clock.

The remains of Wm. Johnson, who fell through the bridge over the Trent at Campbellville last Christmas, and was drowned, were found in the river on Tuesday. Two brothers and two sisters of the deceased left the city to-day, for Campbellville.

NEXT week we are to have the ministers of the Methodist Church of Canada, of the Belleville District, in the city. The District Minister, the Rev. Wm. Johnson, will preach at St. John's Church on Tuesday afternoon, and on Wednesday morning the District Meeting will commence in Bridge St. Church.

A LARGE amount of electrotyping was done on the market and on the streets to-day. Mr. Brown was working energetically, but so were the supporters of the Government, and the latter were much encouraged by the result of their efforts.

Many of Mr. Brown's former supporters announcing their intention of opposing him in the present contest. Mr. Brown secured a novel collection of poets. The *Neu-Argus* says that a few days ago he noticed his dog sniffing around a hollow stump, as though it smelt game. Mr. Brown approached, and looked down the stump, and saw a racoon with its litter of young. He got an axe and cut a hole through the bottom of the stump, large enough to get hold of the racoon, which he fastened in the hole, then, cutting the hole larger, he and his comrade brought forth a prisoner. The little one was easily captured, and proved very young, not yet having its eyes open. The whole family is doing well.

The Finance Committee of the City Council met last night and passed the accounts submitted by the different companies. An account for six tons of coal for No. 2 Fire Co., was referred back for consideration, because the coal had not been ordered by the Chairman of the Fire Committee, and because it was inconceivable that that amount of coal could be consumed in one store during the time stated—3 months and 12 days. It was decided to recommend that the petition of Mr. Jas. Penion, asking for compensation for stock destroyed by dogs, be granted. The petition of Mr. Thos. Wills with reference to taxes on a certain property owned by him was referred to the Council.

A VAIN hope greeted the re-appearance of the Herndon, in the Metropolitan Hall, last night. There was a double bill—the comedy "All That Glitters is Not Gold," and a very funny farce, "The Stage Struck Family." Both pieces were well put on. Mr. Herndon as *Toby Twinkle* in the first piece, and as *Iron Ties* in the farce, was, of course, the main attraction, and elicited rounds of laughter and applause.

He appeared on the stage by nine runs, though just arrived in time to go on stage after a long railway journey, and evidently fatigued, played the part of *Martha Gibbs*, the factory girl, with energy and vigor, and to the satisfaction of all.

The only thing that detracted from the success of the performance was the failure of the gas; coal oil lamps had to be used for footlights. To-night the celebrated play, "Fanchon," the comedy by Mr. Henderson, which was the last piece of the season, was presented by Mr. Henderson.

Mr. Henderson as *Toby Twinkle* in the first piece, and as *Iron Ties* in the farce, was, of course, the main attraction, and elicited rounds of laughter and applause.

MICHAEL MOHAN'S DEATH.

CLOSE OF THE INQUEST.

The inquest into the death of Michael Mohan, which was held at Doctors' Hall last evening at 8 o'clock, was, however, postponed, the jury having arrived at their names, and the taking of evidence was proceeded with.

Jas. Davis, J. T. R. freight clerk, testified that he saw the deceased at the time of the accident at 10:30 A.M. At that time Mohan was at the door of his (witness's) home.

They had been together in the city all the evening, and the witness had come home with the witness. The latter went up stairs to dress because he was to leave for Montreal in the morning.

When Mohan was in the city all the evening, and the witness had come home with the witness. The latter went up stairs to dress because he was to leave for Montreal in the morning.

WHO CAN SELL SEWING MACHINES THE CHEAPEST?

THE MANUFACTURERS.

WHERE CAN THEY BE HAD AT THE CHEAPEST?

AT THE FACTORY.

20 years' experience, steam power and good machinery, enable us to give our customers the best. Parties desiring to get first class Machines, would save money by getting the Sewing Machine. I have good working machines of other make, family and manufacturing, on hand very cheap. I also rent those made. I am the only manufacturer between Montreal and Hamilton.

JAMES BARRETT.

Daily Intelligencer.

THE UNLOVED WIFE

By Mrs. E. D. R. MORTIMER.

Creeping around the rear grounds,

winding between parterres of hyacinths,

tulips, daffodils, and other spring flowers,

there came a very odd woman, small, black,

withered, poorly clad in an old brown linen

gown, with a faded shawl, thin and leaning

on a cane, she drew slowly near this piazza,

where the old lady, in her white muslin

dressing, sat in her wicker chair, looking

hobbling, but trembling with indignation, be-

fore the invalid mother.

"Well, Aunt Adah, am I pleased to see

you abroad once more," said Howard

familiarly.

"Young master, I thank you, sah, An'

I is thankful 'Oh, my Hebeley, Lord,

how thankful 'is in my heart to see yer

attin' out yere!" earnestly responded the

woman, reverently raising her eyes and

trembling through all her frame.

"So down, Aunt Adah, You are not

able to stand," and Howard, kindly

stretching out his emaciated hand to reach

and draw a chair up to the weary old

woman.

"I thank you, young master, I thank

you very much, an' I will sit down in yer

piazza, sence you is so kind, an' I will sit

down to see for I is weak, young master,

I has been a many time to see you, young

master, but I was afraid, but I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

I was afraid, but I was afraid, I was afraid,

WHO CAN SELL SEWING MACHINES THE CHEAPEST?

THE MANUFACTURER.

WHERE CAN THEY BE HAD THE BEST & CHEAPEST?

AT THE FACTORY.

20 years' experience, steam power and good

machinery, enable me to give my customers

best value. Sewing machines for sale by the

dozen, would save money by getting the

factory price. I have good working

machines of other make, family and manufac-

turing, on hand, very cheap. I also have

made. I am the only manufacturer between

Montreal and Hamilton.

JAMES BARRETT.

Remember the place, at No. 10, St. John

St., Belleville, Ont.
